## MESSAGE FROM THE PRINCIPAL

**Dear parents,**

March has been a busy and highly productive month at school. With our mid-semester CBAs now completed, we are beginning to wind down the term while also reflecting on the strong progress made across many areas of school life.

One of the highlights of the month was World Water Week, which was a fantastic success. I hope parents enjoyed the articles shared by form teachers in the various class newsletters. These offered a lovely insight into the learning, engagement, and reflection that took place throughout the week, and it was pleasing to see students connect so thoughtfully with such an important global theme.

At the same time, March has also been a month of significant preparation. Alongside our daily teaching and learning, we have been laying the groundwork for several important events and priorities coming in April. This has included preparation for the school audit, readiness for the school's accreditation visit, and early planning for our End of Year Concert. These are major undertakings, and I would like to thank our staff for the commitment, professionalism, and teamwork they have shown throughout this demanding period.

We are now looking forward to a short break, which will provide an important opportunity for rest and renewal before the start of Term 4. When we return, we anticipate a term filled with exciting opportunities, important milestones, and some significant developments for our school community.

Thank you, as always, for your continued support and partnership in the life of the school.

Yours sincerely,  
**Mr. Jonathan Bosman**  
Principal

## KINDERGARTEN SCHOOL REPORT

### **Making Waves of Learning: A Month of Discovery and Connection at KIK**

**Dear Parents,**

This March, our KIK students experienced an exciting journey of discovery and connection through two special events: World Water Week and our KIK Open Day.

Under the inspiring theme “Water for People and Progress,” our young learners dived into the fascinating world of water. Through hands on activities like “sink or float” experiments, simple STEM challenges, and creative art projects, children were encouraged to explore, ask questions, and make meaningful discoveries. These engaging experiences helped them connect classroom learning with the world around them, nurturing curiosity and critical thinking from an early age.

Our KIK Open Day was a joyful celebration of this active learning approach. Families had the opportunity to see firsthand how our students engage with a variety of purposeful activities including energetic movement and team building games, vegetable printing, music sessions, arts and crafts, and interactive STEM stations. Watching our children rotate through these activities with confidence and enthusiasm was truly heartwarming. The classrooms and playgrounds buzzed with collaboration, creativity, and laughter, offering a genuine glimpse into daily life at KIK.

We deeply value the partnership between home and school in your child’s education. Open Day provided a wonderful chance for families to celebrate their children’s achievements and share in their learning journey. Together with the meaningful experiences of World Water Week, this month underscored our commitment to fostering a nurturing and high quality environment where every child can thrive through real world and engaging learning experiences.

Thank you for your continued support as we make waves of learning together!

Warm Regards,  
**Mr. Joseph**

## PRIMARY SCHOOL REPORT

### Dear Parents,

As we reached the end of March, we were pleased to reflect on another engaging and productive month across our school community.

A key highlight of the month was our World Water Week, during which students explored the theme of oceans as a food source. This meaningful focus allowed students to deepen their understanding of sustainability and the importance of our natural resources. As part of their learning, students created aquariums and 3D ocean models, showcasing both their creativity and their growing awareness of environmental issues.

Students are also participating enthusiastically in the Raz-Kids Reading Challenge. Through their reading efforts, students have the opportunity to donate their stars towards meaningful causes such as providing books for children in need, stocking libraries, and supporting teacher training in other countries. This initiative not only encouraged a love of reading but also fostered a sense of global responsibility and compassion.

In addition, students have been actively preparing for an upcoming vocabulary challenge, where they will compete against other schools. It has been encouraging to see their dedication as they build their language skills and confidence in anticipation of this event.

The month also included our end-of-term assessments. We commend our students for their focus, effort, and perseverance during this important academic period. Their commitment to their learning continues to be commendable.

Thank you for your continued support throughout the term. We are proud of all that our students have achieved and look forward to the exciting opportunities that lie ahead.

Warm Regards,

**Ms. Luné**

## HIGH SCHOOL REPORT

**Dear Parents,**

The past month has been a particularly busy and academically focused period for our Secondary and High School students. We have successfully completed the Mid-Term and End-of-Term Assessments, MOET assessments, and the Mock Examinations for our IGCSE, AS, and A Level students. These assessments marked an important stage in the academic journey of our learners and required sustained focus and commitment.

We are pleased with the manner in which students approached this demanding period. Across year groups, students demonstrated maturity, responsibility, and perseverance, engaging positively with revision and assessment expectations. For our High School students, the mock examinations were especially valuable, offering insight into examination conditions, time management, and individual strengths and areas for development. Teachers will now use this information to provide targeted feedback and tailored support as students prepare for their final external examinations.

Throughout the month, a strong culture of learning was evident across the school. Our teaching staff worked closely with students, providing guidance, revision opportunities, and encouragement. At the same time, we have continued to emphasize the importance of wellbeing, helping students balance academic pressure with healthy routines and self-care.

As we move into the next phase of the term, lessons will focus on consolidation, closing learning gaps identified through assessments, and building confidence. This is a crucial time for students to reflect on their progress and set clear goals for continued improvement.

We would like to thank parents for your continued support at home. Your involvement and encouragement play a vital role in student success. Please feel free to contact the school should you have any questions or concerns.

Warm regards,  
**Mr. Deepak Maharaj**

## INTEGRATED SCHOOL UPDATE

### Dear Parents

This month, our students completed their mid-term examinations. We are proud of their efforts and believe they have done their best during these assessments. The school reports have been sent home for your review. Based on the results, teachers will develop appropriate support plans to help students strengthen their learning and prepare effectively for the final exams.

From 16 March 2026 to 20 March 2026, our Year 6 students participated in a one-week OBV course in Binh Dinh. Additionally, from 30 March 2026 to 3 April 2026, our Year 7 students attended an OBV program in Ha Long. These experiences provided valuable opportunities for students to enhance their life skills, teamwork, and independence.

We are pleased to share some photos of the activities our students participated in during this month.

Warm Regards,  
**Ms. Kim Tri**  
Head of Vietnamese Studies

## STEM UPDATE

### **STEM Newsletter March: Accelerating Creativity with the Cycle of Innovation!**

**Dear Parents,**

Welcome parents and students to the March STEM newsletter! This is a dynamic time as students across the school accelerate into intensive, multi-week projects. Through this cycle of innovation, they are not only acquiring knowledge but also building perseverance, problem-solving skills, and a strong spirit of teamwork.

In the Primary School, Grades 1 and 2 are actively exploring community connections and honing scientific data collection skills. Meanwhile, the spotlight for Grades 3, 4, and 5 is fully on the Rube Goldberg machine project. Students are working diligently to combine simple machines into unique problem-solving systems, promising explosive and surprising demonstrations at the upcoming STEM Day.

Matching this energetic pace, Secondary students are entering the final sprint of their Crest Practical Action project. This is the time to focus on finalizing engineering solutions and their Practical Action Reports in preparation for the Showcase Presentation. Here, they will confidently present their innovative ideas and the practical significance of their projects in tackling pressing global challenges.

March is truly a clear testament to the immense value of project-based learning. We are incredibly proud of our students' efforts and cannot wait to admire their impressive final masterpieces!

Best regards,  
**Ms. Nhu**  
STEM Teacher
